

PICKING FULL-SERVICE

Take advantage of our **full-service picking** offering to optimize your resource allocation.

We deliver all standard components for your tools at the requested time, in verified quality, with the necessary custom labeling, and if needed, pre-assembled and in the correct order in your logistics container – not just FIBRO items but all other parts on your bill of materials.

This way, you reduce lead times and material stocks in your plant, significantly shorten the turnaround time, and enhance transparency in the manufacturing process. Additionally, full-service picking has a positive impact on your CO2 footprint.

PRODUCTION OF MOLDED PARTS

We also offer the machining of forming parts and cutting knives for your tool.

DESIGN SUPPORT

The construction and layout of components for production require a lot of time and expertise. Both are limited and costly resources.

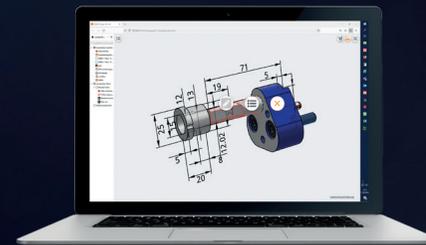

In order to best support our customers with our expertise in the user-specific selection of cutting punches and matching cutting bushes, we have developed the **FIBRO 3D Interactive Product Configurator** in cooperation with CADENAS.

The configurator currently includes our entire portfolio of cutting punches and bushes, as well as guide elements, allowing for the individual selection of product-specific parameters.

Impossible combinations are excluded from the start, meaning incorrect order information is avoided. As a result, our customers receive a ready-to-order solution, with CAD data also available for direct download.

CAD DATA
FROM THE PART COMMUNITY FROM THE PART COMMUNITY

Download information and CAD data – also for individually configurable parts and assemblies.

By a simple click through our part community, 3D geometries and 2D views, data of configurable parts, and entire assemblies are available for direct download or email delivery, according to your preference. And because time is valuable here as well, a fast full-text search is available to quickly locate the desired part if needed.

ONE-STOP-SHOP
GUARANTEE

WEBSHOP
WITH ONLY A FEW CLICKS IN THE SHOPPING CART AND DELIVERED TO YOU IN THE SHORTEST TIME POSSIBLE.

In our shop you can expect 200,000 available items, over two trillion configurable variants, transparency in terms of availability and clear management of all your orders, as well as many other functions.

TRAINING
AT YOUR SITE, AT FIBRO OR DIGITAL – TARGETED AND FLEXIBLE LEARNING!

We offer product- and application-specific training on various topics for different target groups.

Because highly qualified and motivated employees who adeptly tackle challenges

with competence and commitment using modern methods and the latest technologies drive companies forward.

ADDITIONAL OPTION:
EDI AND OCI INTEGRATION
